## I'm Kunal Jasuja, a **Passionate UI/UX Designer**

With over a decade of experience in UI/UX design, I thrive on creating seamless digital experiences that users love. From ideation to execution, I blend creativity with strategic thinking to deliver designs that exceed expectations and drive results. Constantly evolving in the ever-changing landscape of design, I am committed to staying ahead of the curve and pushing the boundaries of what's possible.

### Experience

**UX Manager** - I-Exceed (Currently Working)

[www.i-exceed.com](http://www.i-exceed.com)

- Fostered collaboration and communication between design, development, and marketing teams for seamless integration.
- Advocated for user-centric design principles, ensuring that the end-user remains at the forefront of every decision.
- Spearheaded cross-functional teams to deliver exceptional user experiences while meeting project objectives.
- Conducted in-depth user research and usability testing to inform design iterations and enhancements.
- Established and maintained design standards to ensure consistency and quality across all products.
